OBJECTIVE:

As a dedicated and ambitious BCA student, I am seeking opportunities to apply and enhance my skills in the dynamic field of computer applications. With a passion for technology and a commitment to academic excellence, I aim to contribute my knowledge and creativity to a forward-thinking organization.

PROJECTS:

○ **Contact Management System**

Crafted a robust Contact Management System using HTML, CSS, JavaScript, and PHP, enabling users to seamlessly add, delete, and update their contacts. The project extends user control by allowing profile updates, enhancing personalization. Leveraging the power of these technologies, the system ensures a responsive and visually appealing interface, prioritizing user experience and data integrity.

○ **Library Management System**

dynamic Library Management System in PHP catering to administrators, teachers, and students. The system allows teachers to add books to the catalog, while students can request books. It efficiently tracks which student possesses which book, providing a centralized platform for seamless book management. The project demonstrates PHP proficiency, database management, and facilitates streamlined communication between teachers and students for an enhanced library experience.
